

CFCOVN Flat Conveyor Oven for Drying & Fixing

Flat conveyor ovens for continuously curing chemicals applied on denim, drying and fixing garments.

- Ergonomically designed
- Improves material quality
- Digital Thermostat
- Heat adjustable 0 - 250°C
- Adjustable conveyor speed

Technical Specifications	CFCOVN600
Tunnel Length	600 cm. / 6 meters
Overall machine height	120 cm.
Working width	100 cm.
Overall machine width x depth	145 x 750 cm.
Overall machine weight	1250 Kg.
Average Power Consumption in Preheating	35 Kw
Average Power Consumption in production	17 Kw
Electrical requirement	380V AC 50Hz 3 phase
Production Rate	Varies on speed

Technical Specifications	CFCOVN800
Tunnel Length	800 cm. / 8 meters
Overall machine height	120 cm.
Working width	140 cm.
Overall machine width x depth	185 x 950 cm.
Overall machine weight	2350 Kg.
Average Power Consumption in Preheating	45 Kw
Average Power Consumption in production	22 Kw
Electrical requirement	380V AC 50Hz 3 phase
Production Rate	Varies on speed

Technical Specifications	CFCOVN1000
Tunnel Length	1000 cm/10 meters
Overall machine height	120 cm.
Working width	140 cm.
Overall machine width x depth	185 x 1150 cm.
Overall machine weight	2950 Kg.
Average Power Consumption in Preheating	55 Kw
Average Power Consumption in production	28 Kw
Electrical requirement	380V AC 50Hz 3 phase
Production Rate	Varies on speed
